Under 28 U.S.C. § 1332, a case in which a citizen of one state sues a citizen of another state and the amount in damages is more than \$75,000 is a diversity of citizenship case.

Honorable Ladies and Gentlemen,

I would like to introduce my non-human life and disaster in the past five years. I have been complained a lot of times, but nobody has given me any response. In addition, I have suffered a lot, especially my personal health have been seriously damaged. As a permanent resident in America, I have been in the United States for thirteen years. I have followed law carefully and filed my tax returns for twelve years. I have worked and lived in Chinatown, Manhattan, New York for a long time. In the past two years, I had the horrible life experience. Nobody cared about my complaints. My health was ruined.

1. In 2011, because my personal life was hurt, I wrote a letter to the commissioner of the local Police Station. The second day, two social workers and a lot of policemen came and forced me to be sent to Bellevue Hospital, Manhattan. In the evening that day, I was sent to the Psychiatric Department.
2. In 2012, I attended the monthly community meeting between the neighborhood and the Police Station on the second floor which was held in CCBA, New York. I told the police officers who also attended the meetings about my experiences. However, there was no response or action to me.
3. In September 2012, I live in a small room where have been put dirty air and dust secretly for a long period of time. I could not bear it anymore. Due to this reason, I have the breathing problem. In addition, I have to wear the protective masks (N95) twenty-four hours. I currently wear the double protective masks with the wet paper in between.
4. I have sit or lay down on bed all day long. I feel that my body always hot even if it is in winter season. I keep sweating which is mixed with all of those dusts. While I am sitting, my skin sticks with my underwear. Whenever I go to bathroom to open my underwear, I feel pain. Two sides wall of my bed cracked due to heat.
5. Sometimes, the wet air was sent into the room, all of documents got wet and was destroyed. There is the large area of moldy wall in the small room.
6. The rooms which were surrounded my room from up, down, the front and the back monitored me 24 hours a day with perspective equipment through

walls. My room was divided into 4 little rooms, and the rest of three rooms monitored me in turns and used harmful device to hurt me.

7. The primary tenant who lived with me in the same apartment repeatedly insulted and verbally abused me on purpose. He also repeatedly kicked and damaged the door of my room. Currently, the door of my room was still fixed with iron wire and tape. I reported this to the police several times and they came without any action to this unhuman behavior. A few months ago, the primary tenant still forced me to leave. This case is still in the process in the court.

8. On a day in May 2013, the police sued me in the name of my daughter in the Supreme Court in New York (60 Center Street). At 10 am that day, several policemen and bailiffs suddenly forced to handcuff me and send me to the court. I was handcuffed for a few hours and set free home at 3pm.

9. In the evening of one day in August 2013, an undercover police came and forced to open my door, and pointed the gun to me. I was forced to stay out of my room without any outwear on. Another two policemen were still there. However, they left in a while without saying anything.

10. The device which were damaged by others in the room: 4 computers, 2 cell phones, 1 copier, 1 fax, 2 landline phones, 2 radio players, and 1 air-conditioner. They were too evil.

11. They monitored me for a long time and damaged 2 cell phones, which I used for business for more than ten years. They even persuade some clients to stop doing business with me. The company I run for more than 10 years was totally damaged. They also constantly interfered, monitored, and damage wired telephone and Internet signals.

From 2011 to 2013, I called 911 a lot of times. The policemen basically only came to take a look and left without any further action.

After September 2012, I called 311 to complain. However, nobody had come to check it out. I still kept the part of the record.

At noon when Sandy came in 2012, I fainted at Grand Street and was sent to the Israeli Hospital in Manhattan. When I woke up from the Emergency Room, I noticed that the doctor took 4-5 injection tubes of blood from me. However, a few days later, there was no blood test in the medical report from the hospital. I still kept the injection tubes as evidence.

From 2012 to 2013, in doctor's office, I was given full medical check, which was operated by the doctor in person. The results of the medical reports showed that I was well with nothing wrong. It was an evidently fake report. Why did the doctor lie to me? It was the doctor who let me miss the precious treatment time. I still told the doctor several times, which was 2 years ago, that I might be hurt by the radioactive toxins. The doctor did not take my suggestion seriously, which caused the serious effects on my health.

My current healthy conditions: In the past ten years, the medical report constantly said I have been well. In the past two years, my body has had huge change. It could prove that 2 or 3 years ago, I was hurt by the radioactive toxins. Currently, all kinds of symptom are obvious.

I lost 30 pounds. I also found a lot of skin cancer. In the past over two years, my mouth has been full of blood when I brushed my teeth. There were two bones protruding in my feet. Sometimes, it felt red, itchy, and numb. There is a rift in the middle of the on the top of head. The DNA of my body had been damaged. My face turned to be 10 years older, and my body became weak. My hands and feet felt no strength. All these symptoms were similar to the symptoms of the person with radioactive toxins in the *Encyclopedia*.

In these past three years, I was seriously monitored when I went shopping. I was monitored when I was at work with cell phone photographing. They also used vehicles to stalk me. They used human resources, money, and governmental resources to hurt me. They also warn my coworkers and friends not provide help to me. I, myself, can only speak Mandarin Chinese. Therefore, they used more and more kinds of methods to hurt me. Now I must use law and justice to sue the related departments in the government. I hope I can get support and assistance from everyone. Thank you.

I still believe the US, and believe that the justice and human rights are the basic of the world's people's trust. However, my vivid and terrifying experiences also happened in the city which all people are fond of, Manhattan, NY.
